Michael Tavel AIA Resume

Summary

Michael Tavel is an internationally recognized expert in sustainable urban neighborhood design, and Principal of SUN Studio, an urban design and architecture practice in Denver. The Geos Net-Zero Energy Mixed-Use Neighborhood won a 2009 National ASLA Honor Award for Planning, is featured on the national ASLA website, and was featured in two books: "*Sun, Wind & Light: Architectural Design Strategies*," Third Edition 2014 Wiley and "*Zero Carbon Homes*" 2012 Routledge. Greensburg Green Neighborhoods and Solar Village are other recent award-winning projects. Tavel was featured speaker at the 2013 National AIA Convention, keynote speaker at the 2011 AIA Vermont annual conference, and featured speaker at the 2011 National ASLA Conference and the 2013 and 2011 Portland Urban Architecture Research Lab International Symposium. He has also spoken in Europe, Africa, and South America at government agencies and universities. In 2013 he was scholar in residence at the Zentrum Fur Ceramic in Berlin. In 2016, Michael published "The Culture of Green Neighborhoods," a chapter in the book "In Pursuit of a Living Architecture: Continuing Christopher Alexander's Quest for a Humane and Sustainable Building Culture."

Tavel received his Masters of Architecture with honors from UC Berkeley, and worked for Christopher Alexander and Mark Mack in the San Francisco bay area, and Heinz Tesar in Vienna, before moving to Denver in 1991.

Tavel's work emphasizes passive design strategies within urban development patterns to reduce resource demands, and the relation of urban form and urban architecture to sustainable cultural practices. He is on the faculty of the University of Colorado, Boulder where he has taught sustainable urbanism and urban architecture. His latest project, the 480-dwelling unit SILO Sustainable Neighborhood, broke ground in Lafayette in 2019.
